Welcome

This is the official text of CANSI's RFP. Please accept our apologies and disregard the previous email.

CANSI is looking for the skills of a website designer who can help us make improvements to our website and communication to our members.

The new website needs to be up and running for September 2018, so it can be beta tested during the fall to ensure all the features work and its usability meets our needs for January 2019.

Anyone who may be interested in this project or knows someone who may be able to help us, is asked to contact the National Office (office@cansi.ca) to pick up the CANSI Website Improvement document that will outline our needs, functionality and features for the website and communication system as well as roles and responsibilities of user groups that will contribute to the site once it is up and running.

Potential candidates should have proven web design experience including template design, layout, and linking to a CMS backend.

Proposals for this project need to include: a work plan with timeline, any specific recommendations on software or tools to be used, any limitation, any expectations of CANSI – what you need from us for you to complete the project, and an estimated cost for the project. Please also provide a bio outlining your experiences and include **3 links** to websites you have previously developed.

Proposals need to be received by the **CANSI National office by April 15th**, after which the Committee will make a selection with plans to begin design work by May 1st.

If you have questions or need more details, please feel free to contact Rob Henderson, Website Improvement Committee Chair at rob@hit4results.com.
